2016 Sponsorship Investment Guide

YOUR BEST OPPORTUNITY FOR GROWTH

Dear Valued Chamber Member:

Since 1926, the Hicksville Chamber of Commerce has dedicated its existence to providing services and information to businesses, organizations and individuals in an effort to continuously improve the quality of life for all that live and work in our community.

As we move forward, our focus on our goals has only strengthened. With the help of our members and associations we intend on making the Chamber even more of a resource and benefit.

For our business partners we look forward to providing networking opportunities, offering educational seminars on business growth topics and keeping participants informed through interaction with government legislators and agencies. For our neighbors we will increase our efforts to inform them of all the numerous products and services that are readily available right here in our community, continue our charitable activities and look for more innovative ways to enhance the “Hicksville Experience.”

With these added benefits and the continued support of our members, friends and neighbors, the Hicksville Chamber of Commerce will remain a staple of the community. Take a look around and ask yourself, “What can the Chamber do for you?”
